

## University Site Visit Protocol

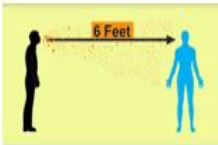

If you are visiting NSCAD please follow these steps to help create a healthy and safe environment for everyone during COVID-19.

Travel in and out of the building via the shortest route and limit your movement to only spaces necessary to complete your work

Disinfect frequently touched surfaces with at least 70% alcohol. This includes but not limited to: door knobs, computers, printer, equipment used by staff and students. *This should be done before and after your visit.*

Respect the six feet apart rule that public health authorities have put in place for our safety.

Wash hands before starting your work and continue to practice proper hand washing throughout your work day. Consider setting a timer on your phone or computer to help remind you.

Eat lunches in your office or a spot away from others. Surface clean before and after your lunch.

If you are unwell, please stay home.
